## Thermal Transfer Specialty Labels

3" Core • 8" OD • Weather Resistant Wound Out Rolls • Perforated • Permanent Adhesive

Gloss White Polyester Film

Gloss White Polyester Film features a topcoat for high performance thermal transfer printing. It is recommended that durable black resin ribbons be used with this material for optimum durability. Made of an emulsion acrylic, the adhesive works well on a variety of surfaces.

Item #	Label Size	Carrier Width	Labels/ Roll	Rolls/ Carton	Labels/ Carton	Weight
649506	1-1/2 x 1/2	1-5/8	9,400	6	56,400	14.4
649517	2 x 1	2-1/8	5,500	8	44,000	27.7
649528	3 x 1	3-1/8	5,500	6	33,000	30.5

649552	4 x 6	4-1/8	1,000	4	4,000	28.0

3.0 mil Polypro Comparable to Kimdura® • Perforated

This material is tear resistant, and water resistance when applied to a non-porous surface. Acrylic based adhesive offers superior ultra violet (UV) resistance.

Item #	Label Size	Carrier Width	Labels/ Roll	Rolls/ Carton	Labels/ Carton	Weight
649315	4 x 2	4-1/8	2,600	4	10,400	23.4
649326	4 x 6	4-1/8	900	4	3,600	23.4

3" Core • 8" OD • Special Adhesive Wound Out Rolls • Perforated

Removable White Paper

Matte-coated, ultra-smooth surface that is tailored specifically for thermal transfer printing. The acrylic based adhesive adheres well to rough surfaces and can be easily removed even after a lengthy period of time.

Item #	Label Size	Carrier Width	Labels/ Roll	Rolls/ Carton	Labels/ Carton	Weight
642508	4 x 6	4-1/8	1,000	4	4,000	23.0
642600	4 x 6-1/2	4-1/8	900	4	3,600	23.0

Aggressive Adhesive White Paper • Permanent Adhesive

Rubber based adhesive designed for applications that require high-tack. Label offers ultimate adhesion to many substrates, especially corrugated paper.

Item # Perfed	Item # Non- Perfed	Label Size	Carrier Width	Labels/ Roll	Rolls/ Carton	Labels/ Carton	Weight

# THERMAL TRANSFER RIBBONS

High-quality thermal transfer ribbons offer several advantages in industrial and commercial printing applications. One key benefit is their superior print durability. The printed labels resist smudging, fading, and abrasion, making them ideal for environments where labels are exposed to harsh conditions such as chemicals, moisture, or extreme temperatures. This durability ensures long-lasting and clear readability, which is crucial for barcode scanning, product tracking, and inventory management.

Another advantage is their versatility. High-quality thermal transfer ribbons are compatible with a wide range of label materials, including paper, polyester, and synthetic films. This adaptability makes them suitable for various applications, from shipping and logistics to retail and healthcare. The ribbons also provide sharp, high-contrast prints that enhance readability and professional appearance, improving overall product presentation and operational efficiency. Communicolor offers a full range of standard and custom ribbons to fit your every need. Our knowledgeable staff is always available to help with technical support to insure you get the right ribbon for your application.

**Wax**- Wide media performance. For coated papers, matte synthetics, and poly bags. Excellent durability.

**Wax Resin**- Wide print range. For paper, polypropylene, and polyester.

**Near Edge Wax**- High and low speed printer performance. For data coding and bar-coding, film and paper.

**Resin**- Wide substrate range. General purpose Resin. Excellent durability with low print energy.

## Cleaning Cards for Thermal Printers

Designed to clean performance-critical surfaces inside thermal printer devices, our results shown to improve print quality while significantly reducing media jamming and unnecessary device downtime.

# Fast, On Demand Color Label Printing without Compromise.

DESKTOP COLOR LABEL PRINTER

## VP750

The VP750 color label printer is ideal for short to medium print requirements. Combined with its ability to print vibrant colors at up to 60 feet per minute on a wide range of paper, polyester, polypropylene and vinyl label stocks makes the VP750 the perfect solution for printing labels in-house, on time and on your terms.

### High speed

Fast print speed up to 12 inches per second. Prints up to 2,400 4" x 3" labels within 10 minutes.

### Dynamic color

Brilliant colors for prime labels with resolutions up to 1,600 x 1,600 dpi. Great for crisp text and fine barcodes.

### More labels per ink change

Individual 250ml ink tanks reduce replacement cost.

### Perfect for short runs

Print from 1 up to 10,000 labels anytime on demand.

### Large label printer

Prints labels up to 8.5" wide, offering the flexibility to produce everything from high-quality food labels to durable carton box labels.

### Dust-free enclosure

With a metal enclosure to keep dust out, the VP750 is tough enough to weather 24/7 operations on a dusty factory floor.

## Food Safe

VIP Color label printers use non-toxic aqueous dye inks, making them a safe choice for producing labels used in indirect food contact applications. It's a smart, reliable way to create vibrant, high-quality labels while maintaining safety for food packaging.

## Water Resistant Labels

VP750 labels deliver excellent water resistance compared to other dye inks, helping your labels stay bright and vibrant even when exposed to moisture. They maintain their brilliance and vivid color through contact with water and even some solvents like alcohol. Ideal for craft beer, wine, water bottles, and frozen foods.

# Ordering Checklist

1. Your distributor account number.
2. Your PO number and your customer's PO number, if applicable.
3. Item number, label size, and number of cartons (1 carton minimum).
4. Address we are shipping to: you or your customer.
5. How you would like it shipped.

## Is your roll wound in or wound out?

If you're doing a custom job, the drawings have options for how the copy can run. When placing custom orders for rolls, choose the proper position number to ensure your customers get their labels the way they want them!

# Terms and Conditions

## Pricing & Payment:

All prices are listed in U.S. dollars and are subject to sales tax if no valid resale certificate is on file. Non-exempt conditions will be determined by governing jurisdiction. Sales tax is not included in standard pricing. Prices may change without notice. Freight costs, custom duties, tariffs, and freight forwarder expenses are not included in the price of products. Customized labeling of stock product is \$0.35/carton with a minimum of \$10. For cancellations, the customer is responsible for expenses incurred by Continental Datalabel® up to the time of cancellation.

## Shipping:

All shipments are FOB our factories or regional distribution centers. Unless otherwise specified, Continental Datalabel® will suitably prepare all shipments to secure the lowest transportation rates.

## Returned Goods:

All returns require prior validation and a Returns Goods Authorization (RGA) Number to be issued. All returns must be clearly marked with this authorization number or the return will not be accepted and any freight charges incurred will be the originator's responsibility. Shipments must have each box marked clearly indicating the RGA number. For skid shipments, the skid must be marked with the RGA number on a placard on at least (2) sides of the skid. The distributor will be responsible for making arrangements with the parcel service or trucking company to return products that were not the responsibility of the manufacturer or of CDL processing of the order. Returned product deemed to be within CDL's specifications/non-defective or due to customer error is subject to a restocking fee. No freight credit will be issued. Special order ribbons will incur a 55% restocking fee. RGA's will expire 30 days from the issue date and returns will not be accepted after the expiration date. Continental Datalabel® reserves the right to refuse returns for any reason.

# DIGITAL PRINTING

## Speed

By eliminating the use of plates, a digital run drastically reduces the overall runtime for a custom job. What would normally take several hours to print on a flexographic run can instead be accomplished in minutes!

## Quality

The finished quality of a digitally printed label will consistently outshine that of a flexographic print. Our HP-Indigo press can print at 230 line screen, which is close to double that of a flexographic print! If you're looking for a vibrant, high-resolution print, go digital!

## Cost

Running digitally eliminates the need for plates, film to output, and requires minimal machine setup. These factors keep digital jobs at a cost-effective price that you can't beat!

## Flexibility

Digital printing's greatest power is its flexibility; you can print thousands of custom labels, each containing different data. That's right – completely variable data printing! Everything from consecutive numbers, multiple barcodes, names from a database, or even just several versions of the same label.
